Dear Parent(s)

Hope you all are safe and keeping good care of your health and your family in this quarantine period of corona virus. The school was all set to inform the parents about the declaration of result and commencement of new academic session 2020-2021 but the pandemic of corona virus has brought everything to a standstill. As per the directives by Government of India, all the students of classes Pre school to VII are promoted to the next class and the same has been done by the school. The hard copy of result will be handed over to the students on their first day to the school.

The Government of India, state government, medical personnel, police, various other departments of essential services and even the public in general, including you are fighting against this pandemic of corona virus. But, at this time of the hour, health and safety is our first priority and we must abide by the directions of our Prime Minister, Chief Minister of Delhi and stay at home to further stop the spread of corona virus.

Now, since there is a lockdown in the entire country, I would like to apprise you with a few details so that the parents feel at ease and need not worry.

We, at RDPS family would like to assure you that the children will not be facing academic loss will be easily compensated and adjusted before the commencement of the summer vacation.

The school has already designed a well planned curriculum for the development of scholastic and co-scholastic aspects of the students and we just need to make changes in a few dates as per the directions and further notifications from Department of Education, Govt of NCT, Delhi.

As far as the curriculum of the students is concerned, I want to assure you that it will be easily completed by making changes in the Summer Vacation as at RDPS, we are fortunate to have all air-conditioned classrooms and labs etc. wherein we provide a conducive environment to the students for their studies and other activities to meet out the hot weather conditions. The year planner has already been drafted for session 2020-2021 and the same will be shared with you after the reopening of the school.

The teachers at RDPS are well - qualified and competent so that the children are not at any academic loss. The teachers are teaching online to classes V – VIII and are all set to take the classes Pre-primary to IV soon. They are working so hard on it that you will yourself not feel any difference between virtual and live classroom. The students will not feel any loss of studies when they come to school. Along with the curriculum based material , the teachers have already sent you the plethora of activities to keep children busy in this tough time when they are also locked in homes for such a long time. The personal care by the teachers for the students whether they are in school or at home shows their motherly attitude for which RDPS is always known for. We are surely proud of our teachers.

Let's join it hands together to pray to the Almighty for gracing the humanity to overcome this menace. Let us be a warrior and fight against this pandemic. During this scenario, we all

must be with Nature and embrace Nature to the fullest. It is suggested not to worry and panic as the school will leave no stone unturned in the best interest of the students.

Also, we will update you from time to time with various details and notifications from the school in the best interest of your ward.

The orientation program for the parents of new students was planned in the last week of March but it could not be scheduled for obvious reasons. The orientation session was just meant to apprise the parents with the teachers and update them about books, uniform and other details. These details will be shared with parents who have just joined the RDPS family as soon as possible after the reopening of school.

For queries, if any, you can be in touch by dropping an email at the school official email id [contact@rdpsrohini.edu.in](mailto:contact@rdpsrohini.edu.in) and same will be replied back immediately. Take care and Stay Safe.

With regards  
(Dr. Praveen Gupta)  
Principal
