

Winter Holidays Home Work (Session 2019-20) (Pg.1-2)
Class - Pre-Primary

Dear Students

Winter is no reason to stay inside all day. Just because the sun is hiding doesn't mean it's time to hunker down and hibernate. During colder months, it is important to get the family outside and maintain activity even though there may be some frost on the ground. Besides, winter months bring on a whole new set of fun activities to explore. Go out with your family in a park and enjoy playing under the sun.

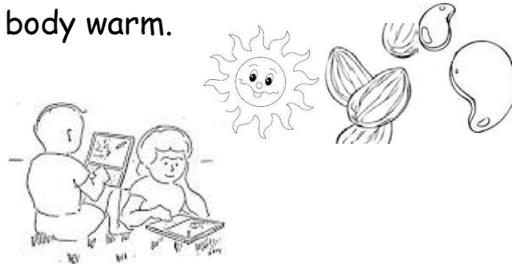

Just a little Note

1. Early to bed, Early to rise makes a man healthy wealthy and wise.
2. For ensuring fluency in English language, interact in English only.
3. Eat lots of green vegetables, fruits and green salad.
4. Watch informative Programmes on T.V.

1. Wake up early in the morning go for nature walk and spot out some differences between winter and summer season.

2. Eat lots of dry fruits as they keep our body warm.
3. Enjoy sitting long hours under the sun.

4. Cover your self with warm clothes like sweater, socks, gloves, etc which protect us from cold.
